Fresh Fruits

Grapes

Bunches of grapes are wisely chosen by our Naturale' steam for harvesting. The clusters are usually harvested during the early hours of the day and handpicked under the supervision and are carefully placed in a single layer in crates and immediately transported to the Packing house for further process. They are also good source of vitamin-C, vitamin-A, vitamin-K, carotenes, B-complex vitamins.

Pomegranate

Pomegranate fruit is one of the most popular, nutritionally rich fruit with unique flavor, taste, and health promoting characteristics. Together with sub-arctic pigmented berries and some tropical exotics such as mango, it too has unique qualities of functional foods, often called as "super fruit." It contains no cholesterol or saturated fats and thus tends to be the best source of nutrition.

Mango

"Alphonso" is the finest or Grade 'A' quality of Indian dessert mangoes and it is presently the king of the Indian fruits. Popularly known as 'hapoos' across South Asia. The Color of Mango is from Golden yellow – Orangish yellow. Naturale's handpicked mangoes are duly selected, sorted and delivered to suit the consumers demand and desire of having a best quality mango in its natural form
